

# Smart Parking for Corporate Offices

Simplify entry/exit, payments, and permit management with a white-labeled, automated parking platform. Offer employees partially or fully paid parking benefits, customized to your policies. Automate invoicing to reduce admin overhead, freeing up time to focus on higher-value work.

## 3x faster entry & exit for employees & visitors!

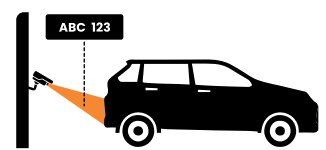

### DRIVE IN

Plate identified at entry.  
Permit **auto-applies** for employees.

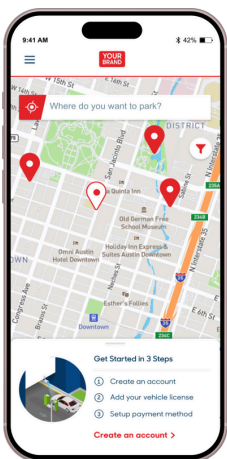

### PARK

Park in **reserved** spots for each office. Guests can scan to pay online.

### DRIVE OUT

Plate **matched** with entry.  
Permit users drive out.  
Guests pay to exit.

## Make parking easier for employees

App and app-free methods to claim parking benefits

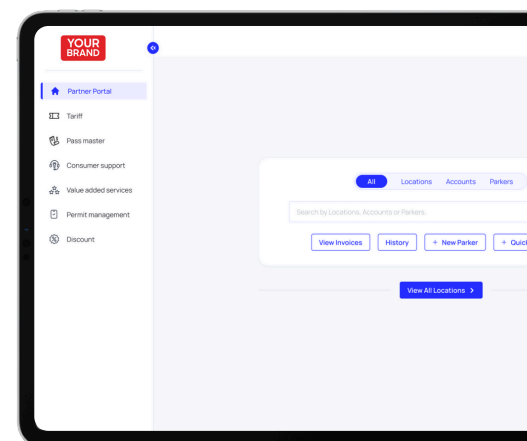

- Parkers register their details on the parking app or its web version
- Activate permit with the welcome email
- Choose between permits and submit docs for approval

Parkers enjoy automated entry & exit after permit approval is complete!

## Reduce paperwork for your admins

Self-serve portals to add and manage parkers and permits.

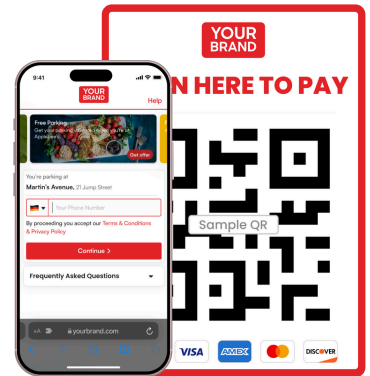

- Add new parkers and activate their parking benefits
- Review and approve documents and permits
- Receive and settle invoices with the parking operator

# App-free parking and validations for guests

- ✓ A web version of the app for **guest payments and validations**
- ✓ **Scan a QR or send a text** and get a link to pay online
- ✓ Guests can also **tap a card at the exit** to pay on the spot
- ✓ Validate guest parking from the self-serve portal

## Automate invoices — never miss a payment

Streamline billing with invoices automatically sent to partners. Collect online payments with auto-pay, log cash or cheque payments, and set customizable contract rules such as permit minimums, overage fees, and applicable taxes. Your ledger is automatically maintained and always available for download.

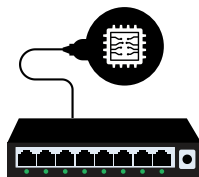

## Retrofit and get AI parking without the overhead

Plug & Play our off-the-shelf components and GateKit to upgrade your existing equipment. **Save up to 90% in capital expenditure.**

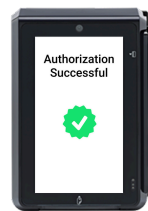

Here's all you need to set up AI parking in your facility:

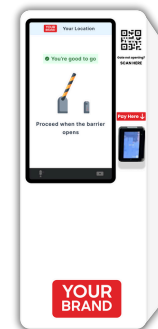

Camera

GateKit

Card Reader

Display Kiosk

## Make office parking simpler

No more paper permits to lose or replace

Apps, signs and display software white-labeled for any brand of choice

Monitor and control gates and doors remotely

Enable EV charging sessions and payments
