

Powered by **AVA** – The Parking AI

Replace tickets, reduce delays, and automate parking payments. ExpressLane's **License plate recognition** and **AI-powered vehicle matching** create a seamless drive-in, drive-out parking experience while helping operators improve revenue capture and reduce customer disputes.

Gates open automatically!

Works in **gateless** environments too!

Reduce support calls by 84%

Optimize revenue capture

99.8% LP matching accuracy

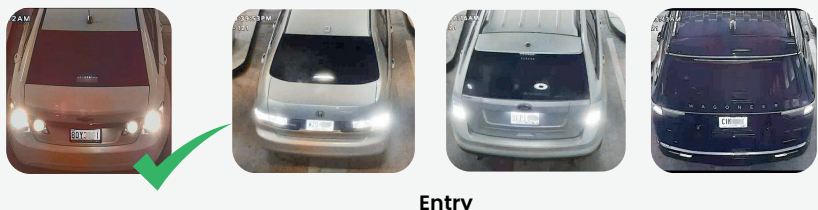

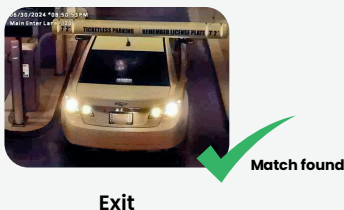

Transcend LPR with **AVA Vision Agent**

 Enhances low-light images

 Auto-crop plates for quick matches

 Trained on millions of reads worldwide

 AI trained by human corrections

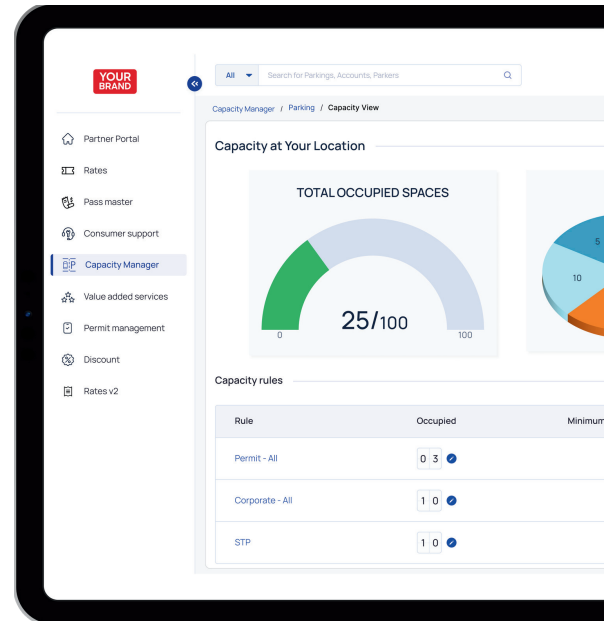

Get 24/7 lane support with **AVA Lane Agent**

Give parkers instant assistance at the kiosk or exit lane. AVA Lane Agent helps with payments, validations, permits, and reservations. It answers questions, explains charges, resolves common parking issues, and connects parkers to live support when needed.

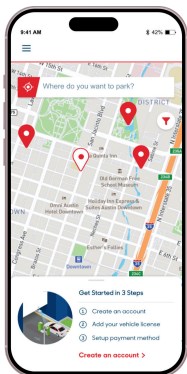

- Natural Voice Conversations
- Context-Aware Conversations
- Multilingual voice interactions
- Real-Time Data Access

Stay on top of your operations with **live data**.

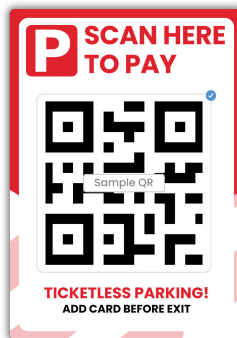

- ✓ Dynamic dashboards with actionable insights
- ✓ Create custom reports and dashboards
- ✓ Verify transaction data and trigger refunds
- ✓ Monitor live occupancy data for each parker group
- ✓ Enforcement API for enhanced security
- ✓ Integrate with 3rd party enforcement tools

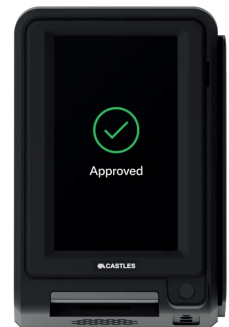

Offer more than one way to park and pay.
