## Go Ticketless with a Pocket-friendly GateKit.

One solution, many ways to park and pay.

Retrofit and digitize your gates with a Plug-N-Play GateKit.

Set up free-flowing traffic in your locations with touchless, cashless payments. Parkers can create sessions and pay online via an app or web app, custom-branded for your business.

## Features

- **Plug & Play**, low-cost installation
- Monitor your gates and locations in **real time**
- Set up ExpressLanes with **AI-powered LPR**
- Configure **dynamic rates**, validations and more
- Round-the-clock **support** and query resolution

### **A white-label app**

App users get super-fast access and automated payments.

### **Tap & Park**

Tap a card at the gates to park and pay - no downloads, no tickets.

### **Scan to Park**

Scan a QR code to pay online via a web app

### **ExpressLane**

Fast, ticketless AI-PARCS with GMP AI correcting LPR misreads
