**GMP EV**

get my PARKING
where mobility begins

Integrates with any EV charger

Compliant with OCPI standards

Get started with just a QR Code

User-friendly admin tools

Offer EV charging through a white-label parking app.

Set up sessions and payments for your EV charging services on a custom-branded cross-platform app. The app helps users find your locations with EV charging stations, create one session to both park and charge, and pay online.

A bolt icon on your locations with EV charging

Pay once to park and charge

Scan a QR on a charging point to get started

Flexible, OCPI-compliant solutions

Manage your sessions on a centralized dashboard

Live reports on energy consumption
