

# Gated AI-PARCS

Set up ticketless parking in your gated parking locations with ExpressLane. Turn parking into a seamless self-serve experience with AI-assisted **Vehicle Matching Technology** for automated entry/exit and payments.

## Gates open automatically!

**Achieve 3x faster entry & exit speed!**

**Reduce support calls by 84%**

**Optimize revenue capture**

**~99% session accuracy in 800ms**

## GMP AI fixes broken sessions in real-time.

Adjusts lighting for clearer reads with higher accuracy

Auto-crops LPR images for faster session matching

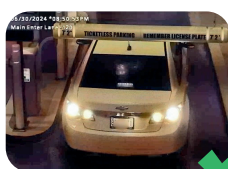

Trained on millions of reads from 1000+ cameras around the world

Correct misreads manually to train GMP AI

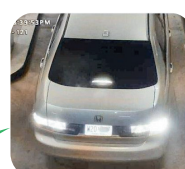

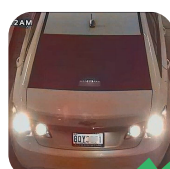

## Transcend LPR by recognizing vehicles, not plates.

Deep tech experts train GMP AI specifically for parking, based on millions of images from around the world so that it can identify vehicles by their make and model, not just their license plates. This gives you up to 99.8% LPR accuracy.
