

# Smart Mobility in Your Municipality

Simplify gated and gateless parking in your municipality with a single white-labeled city app—or go app-free! Plug & Play to deliver a seamless digital experience for residents, visitors, and staff, complete with permits, validations, and enforcement tools.

**Make entry & exit 3x faster in your municipality.**

**Park without pulling a ticket.**

**Let your customers choose their own journey.**

## App-free

Scan a QR or send a text to pay online

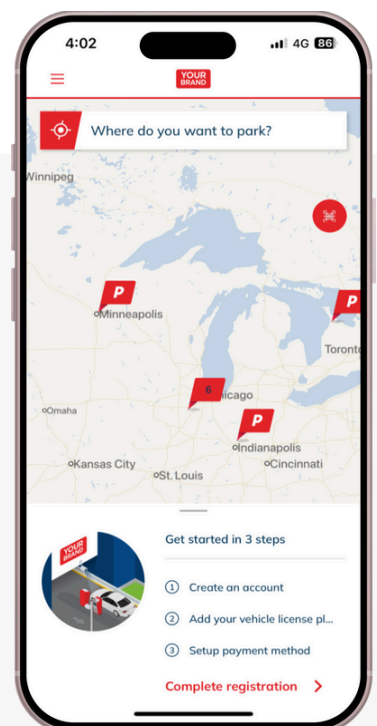

## Card

Tap a card at the exit to pay on the spot

## App

Automated entry/exit permits and payments

Share updates, emergency alerts, and event info via **in-app ads** or **push notifications**

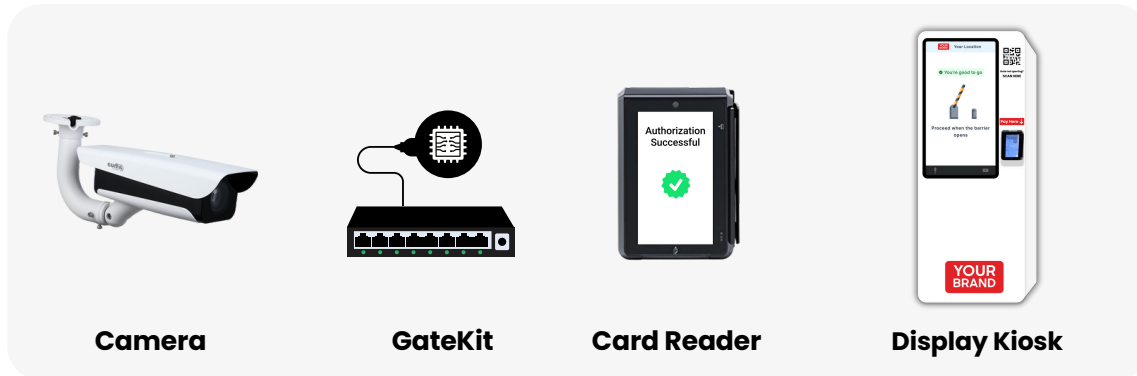

Residents buy or **apply for permits online** with digital and physical access card options

Offer value added services like **EV charging** on the app – pay once to park and charge!

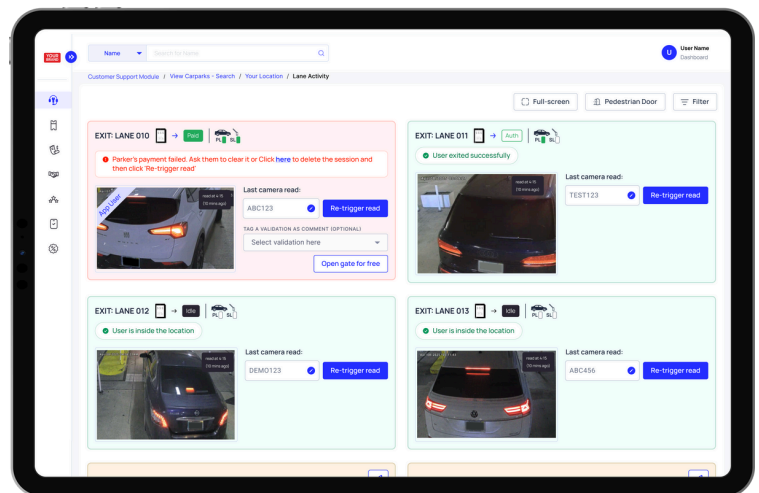

# Upgrade to AI parking **without the overhead.**

Retain your existing parking equipment. Just Plug-N-Play the following devices to **save 90% in CapEx**. Here are all the sole-sourced components you'll need!

## Live parking data from across your municipality.

- ✓ Dynamic dashboards with insights
- ✓ Monitor locations with footage from lanes
- ✓ Fix and close parking issues remotely
- ✓ Live reports for enforcement officers
- ✓ Open gates and doors for parkers

## Do more with digital parking.
