

Smart Mobility in Your Municipality

Simplify gated and gateless parking in your municipality with a single white-labeled city app—or go app-free! Plug & Play to deliver a seamless digital experience for residents, visitors, and staff, complete with permits, validations, and enforcement tools.

Make entry & exit **3x faster** in your municipality.

Park without pulling a ticket.

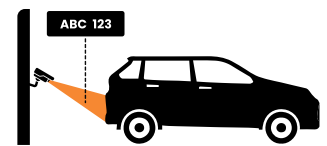

DRIVE IN

Camera reads the plate when the parker drives in

PARK

Add payment method or use the app

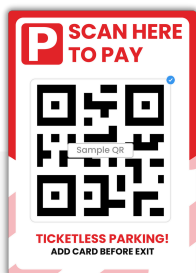

DRIVE OUT

Camera reads the plate and closes the session

Let your customers choose their own journey.

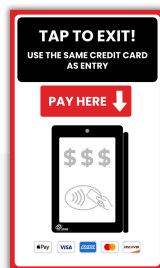

App-free

Scan a QR or send a text to pay online

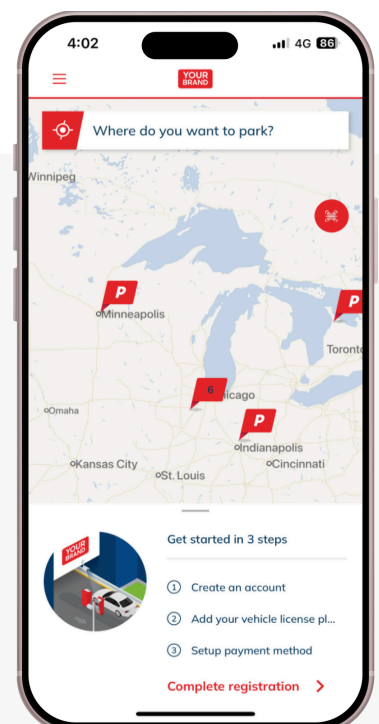

Card

Tap a card at the exit to pay on the spot

App

Automated entry/exit permits and payments

Share updates, emergency alerts, and event info via **in-app ads** or **push notifications**

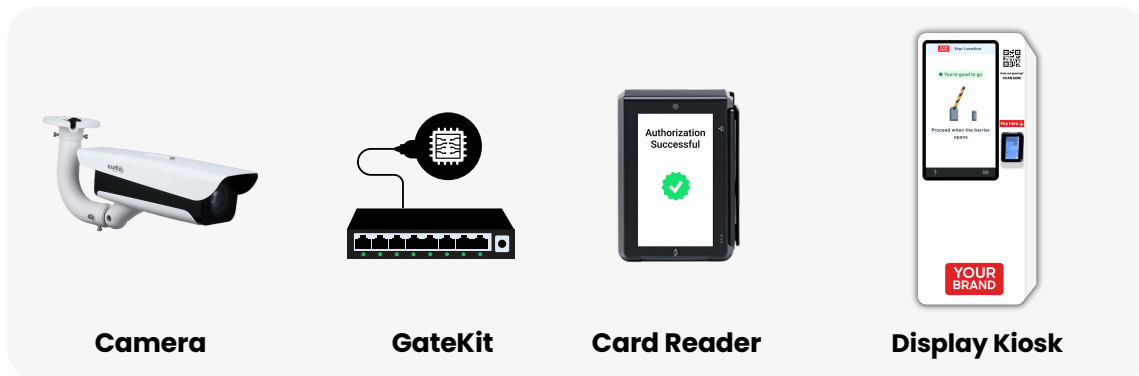

Residents buy or **apply for permits online** with digital and physical access card options

Offer value added services like **EV charging** on the app - pay once to park and charge!

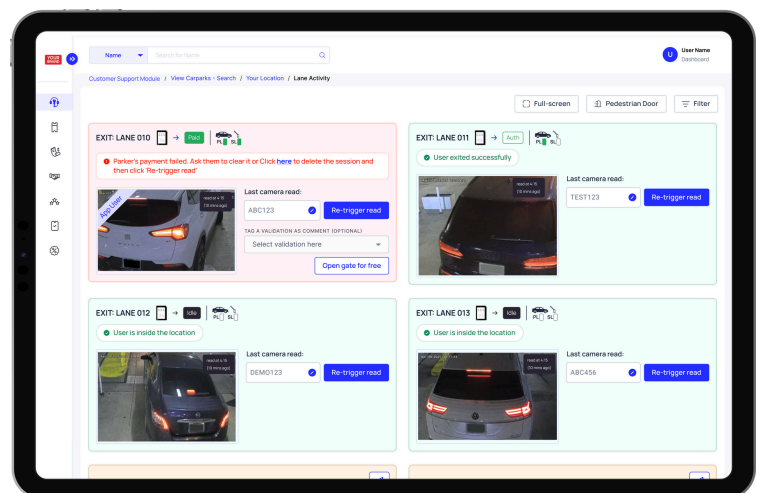

Upgrade to AI parking **without the overhead.**

Retain your existing parking equipment. Just Plug-N-Play the following devices to **save 90% in CapEx.** Here are all the sole-sourced components you'll need!

Live parking data from across your municipality.

- ✓ Dynamic dashboards with insights
- ✓ Monitor locations with footage from lanes
- ✓ Fix and close parking issues remotely
- ✓ Live reports for enforcement officers
- ✓ Open gates and doors for parkers

Do more with digital parking.

No more physical parking meters and cash handling

Customized signs and display software

Increase your municipality's parking revenue

Enforcement APIs to automate citations and payment collection

Set up one-time passes or special rates for events

Get live insights into parking demand and occupancy
