

Smart AI Parking for Universities

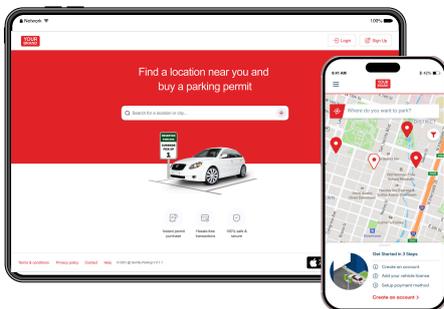

Upgrade your campus parking without replacing gates or hardware. ExpressLane plugs into your existing setup to bring control and faster movement at a fraction of traditional costs.

A faster journey, right from the gate

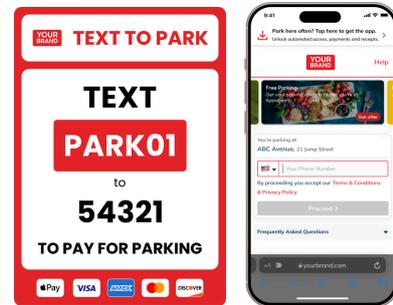

Save time and improve the parking experience for your staff and students

App and App-free ways to park

Custom-branded app
and web portals

App-free options
(scan, text, or tap to pay)

Built for Campus Life

-  Fast entry and exit with license plate recognition
-  Easy for admins to manage on-the-go
-  Easy to manage by department or user
-  In-app or web ads to promote campus needs
-  Hands-on-the-wheel parking experience

ExpressLane turns your existing parking system into an AI-powered experience without a major infrastructure project.

Set up parking **anywhere**, with **whatever** you have!

- ✓ Uses existing gates and equipment
- ✓ Quick install & expansion across campus
- ✓ Works with your current software architecture
- ✓ Plug-n-play with off-the-shelf components
- ✓ Save by up to 90% on CapEx

**All you need for a
pocket-friendly upgrade**

AVA — AI Customer Support for ExpressLane

-  24x7 multilingual support for drivers at the exit gate
-  Identifies users by license plate for fast resolutions
-  Handles topics like payment, permits, validations, etc.
-  Trained on facility specific rules, workflows, and guardrails
-  Escalates to human staff whenever the need arises

Dynamic Validations

- ✓ Offer digital or paper validations options for parkers
- ✓ Prepaid (upfront) or postpaid (by usage) billing models
- ✓ Send validations by text or email instantly
- ✓ Distribute validations based on department or user type
- ✓ Integrate with third-party reservation & permit tools

Smart Tools That Matter to Your University

- **Live Capacity View:** Virtual view into each lane, staff assist from remote location(s)
- **Event Reservations:** Set and sell flexible rates for events, visitors, VIPs, and staff
- **Nested Parking:** Prioritize premium and staff zones with smarter compliance regulations
- **SSO Access:** Staff and students sign in with university credentials via 3rd party integrations
- **Push Alerts & Announcements:** Send event reminders or notices through your campus-branded app
- **Payroll-Linked Payments:** Offer deductions directly from staff payroll
- **Smart Gate Access:** Approved vehicles enter automatically with plate recognition, no RFID cards needed
- **75+ Integrations:** Works with PARCs & permit apps, enforcement tools, and more
