

Custom app  
in 2 weeks

Ticketless  
entry and exit

Cashless  
payments

Prebook parking  
and VAS

## A custom-branded app for your parkers.

Take your parking business online with your own white-labeled consumer app that lets your parkers navigate to your locations, create and manage their sessions and enjoy a touchless experience using any payment method of their choice

## Features

- Let your parkers book parking sessions and other Value-Added Services.
- Customize your parking app with your brand colors/logo
- On-demand integrations with third-party apps/websites
- Integrates seamlessly with your existing equipment
- Cross-platform app available on iOS/Android/Web
- Enables ticketless access to your parking lot

## Trusted By Market Leaders

An operator in Hawaii used GMP solutions to create a custom-branded parking app through which parkers can navigate to their various parking lots and pay touchlessly for their parking sessions. The client also integrated their food delivery portal to the app, and is now well-known as a provider of touchless parking and hospitality services in the area.
