# Hassle-free **Hotel** Parking

Offer a smooth, digital parking experience at hotels with self-serve portals, available for gated and gateless hotel locations.

No PMS integrations required!

Validate parking in just a few clicks.

Just add the guest's **phone number, license plate** and **check-in details** to validate.
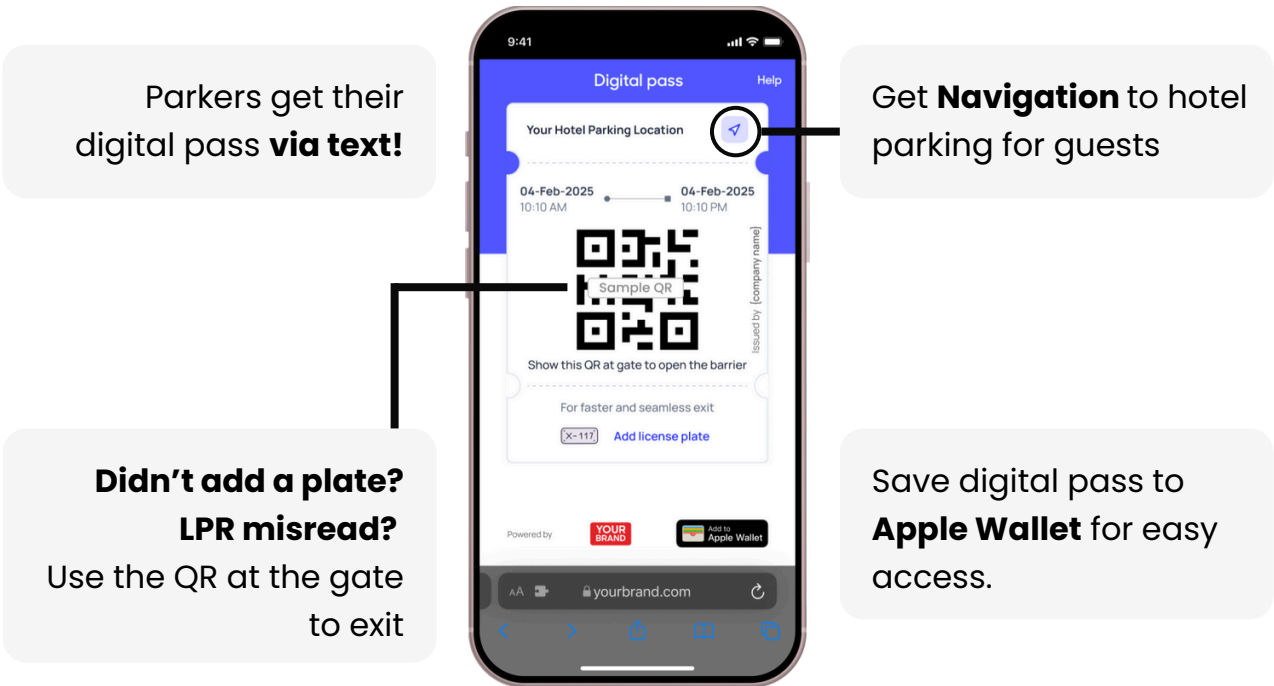

Update **check-out date** to extend guest parking.

Kiosk Mode for Busy Lobbies

Set the self-serve portal up on an i-Pad or tablet for self-serve validations **without staff assistance**.

Uninterrupted Parking for Everyone

Gates open automatically for saved license plates, for both guests and staff. With **AI-assisted LPR**, parking won't slow down your hotel operations. No tickets, no waiting!

A **digital pass** for quick entries, every time.

Parkers get their digital pass **via text!**

Get **Navigation** to hotel parking for guests

Didn't add a plate? LPR misread? Use the QR at the gate to exit

Save digital pass to **Apple Wallet** for easy access.
